Renewing their commitment to immediately cease all hostile propaganda and inflammatory statements in the media.

The Parties agree:

1. In accordance with previously adopted agreements, the Parties shall immediately issue instructions to their forces to withdraw unconditionally to their side of the border. Each Party shall relay relevant information on its withdrawal to the JBVMM, which shall monitor accordingly.
2. The Parties shall immediately operationalize the Joint Border Verification and Monitoring Mission (JBVMM) and the Safe Demilitarized Border Zone. The Parties agree that the JBVMM shall be operationalized in accordance with the Agreement on the Border Monitoring Support Mission of 30 July 2011 as well as the JPSM reference documents adopted on 18 September 2011.
3. The Parties agree that the SDBZ will be operationalised in accordance with the administrative and security map presented to the Parties by the AUHIP in November 2011 with additional special arrangements for the operationalisation of the SDBZ in the '14 mile' area which shall include complete demilitarisation of the '14 mile' area, maintaining the status quo of

the joint tribal mechanisms for the resolution of disputes. These special arrangements will be supported by the JBVMM and the Ad-Hoc committee of the JBVMM Sector HQ, reporting to the JPSM. The two armed forces North and South of the demilitarized area are to remain in their current base locations. The JBVMM will verify no movement by military forces and armed civilians in the demilitarized area. The Ad-Hoc committee will investigate any threats emanating to these arrangements from beyond the demilitarized area. Neither party will alter force dispositions in the border area without consultation with the JPSM, through the Ad-Hoc committee. These additional measures are temporary whilst the parties resolve the final status of the boundary.

4. The Parties shall immediately activate the Ad-Hoc Committee to receive and investigate complaints and allegations made by one party against the other, in accordance with the Terms of Reference agreed on 23 June 2012. The Ad-Hoc Committee shall be formally activated by the Co-chairs of the JPSM as a JPSM sub-committee with a standing secretariat.
5. In accordance with the JPSM agreement of 18 September 2011, the Parties agree to immediately open the 10 agreed border-crossing corridors. The modalities for the opening of these corridors shall be agreed by the JPSM. The JBVMM shall monitor this process.

3 ACCESS RIGHTS, DELIVERY AND REDELIVERY

- 3.1 a. The GoS hereby grants the GoRSS access rights to the Processing and Transportation Facilities for the GoRSS Oil Entitlement Volumes in accordance with this Agreement and the agreements to be developed as provided in sub-Article 3.3 below.
- b. The right of access for the crude oil produced in Block 5A shall be subject to quality and capacity constraints of the processing facilities and the transportation system and the Khartoum Refinery.
- 3.2 The GoRSS Oil Entitlement Volumes delivered at the inlet of the GNPOC processing facilities shall be redelivered at the outlet of the GNPOC transportation system. The GoRSS Oil Entitlement Volumes delivered at the inlet of the Petrodar processing facilities shall be redelivered at the outlet of the Petrodar transportation system. The redelivery obligations shall be subject to applicable quality and quantity adjustments, fuel oil consumption and processing and transportation operational losses.
- 3.3 a. The Parties shall develop processing agreements for the processing of the GoRSS Oil Entitlement Volumes in the GNPOC and Petrodar processing facilities and transportation agreements for the transportation in the GNPOC and Petrodar transportation systems. The agreements shall be compatible with the existing processing and transportation procedures and practices in these facilities and consistent with this Agreement. The Parties shall aim to conclude the agreements within one (1) month after the signing of this Agreement, unless otherwise agreed.
- b. The resumption of oil production, processing and transportation as provided for in Article 15 shall not be dependent upon the conclusion of agreements under sub-Article 3.3 a above. Until such processing and transportation agreements have been concluded, existing practices based on the relevant technical provisions as contained in the relevant Crude Oil Transportation Agreements shall apply unless otherwise provided for in this Agreement.
- 3.4 The Parties shall take all necessary actions to implement the provisions of this Article and other relevant provisions of this Agreement with the relevant operating companies.
- 3.5 The GoRSS shall provide their proportionate share of the linefill for the

TM.

Petrodar and GNPOC transportation systems. At the expiry of this Agreement, this share of the linefill shall be redelivered to the GoRSS at the marine terminal.

- 3.6 If oil production in the RSS should become technically or economically non-sustainable, the GoRSS shall send written notice to the GoS at least sixty (60) days prior to the estimated suspension of deliveries. Following consultation with the GoS, the GoRSS may suspend deliveries of the GoRSS Oil Entitlement Volumes under this Agreement from those fields where such non-sustainability exists.
- 3.7 If the operation of the Processing and Transportation Facilities should become technically or economically non-sustainable, the GoS shall send written notice to the GoRSS at least sixty (60) days prior to the estimated suspension of deliveries. Following consultation with the GoRSS, the GoS may suspend the operation of those facilities where such non-sustainability exists.

4 FINANCIAL ARRANGEMENTS

4.1 Processing fees

- 4.1.1 The GoRSS shall pay to the GoS a processing fee of one United States Dollar and sixty cents per barrel (USD 1.60/bbl) for the GoRSS Oil Entitlement Volumes for processing services in the GNPOC processing facilities.
- 4.1.2 The GoRSS shall pay to the GoS a processing fee of one United States Dollar and sixty cents per barrel (USD 1.60/bbl) for the GoRSS Oil Entitlement Volumes for processing services in the Petrodar processing facilities.

4.2 Transportation fees

- 4.2.1 The GoRSS shall pay to the GoS a transportation tariff of eight United States Dollars and forty cents per barrel (USD 8.40/bbl) for the GoRSS Oil Entitlement Volumes for transportation services in the GNPOC transportation facilities.

TM.

€

[Handwritten signature]

4.2.2 The GoRSS shall pay to the GoS a transportation tariff of six United States Dollars and fifty cents per barrel (USD 6.50/bbl) for the GoRSS Oil Entitlement Volumes for transportation services in the Petrodar transportation facilities.

4.3 Transit fee

4.3.1 Whereas, during negotiations, the GoS had first indicated a transit fee of USD 6.00/bbl for the foreign transporters of oil through its territory, the GoS has now set that fee at USD 4.00/bbl; and whereas the GoRSS initially indicated that a transit fee of USD 0.63/0.69/bbl would be appropriate but at the end of the negotiations in August 2012 had considered that it would be reasonable that the GoS grants free transit for all the oil produced in the RSS; neither Party has endorsed, or should be regarded as having endorsed, any of the fees quoted or positions taken by the other Party.

However, in view of the special relationship between the RSS and the RoS, the Parties have agreed that the transit fee for the GoRSS Oil Entitlement Volumes shall be United States one dollar (USD 1.00/bbl). This special fee shall not serve as a precedent, nor shall it have any implication for, or prejudice, any arrangements between either State and any third party. Accordingly, nothing in this paragraph, or in any other part of this Agreement, shall be understood to be the GoRSS's consent - express or implied - to the GoS levying of a transit fee of any value on entitlements other than those of the GoRSS. It is for the GoS to agree with foreign transporters on whatever transit fee it deems fit.

4.4 TFA

4.4.1 The GoRSS shall transfer to the GoS a finite sum of three billion and twenty eight million United States Dollars (USD 3.028 Billion), as a transitional financial arrangement, which the GoRSS will pay in accordance with the payment procedures in Article 5 below, on the basis of a rate of fifteen United States Dollars per barrel (USD 15.00/bbl).

4.4.2 In case the finite sum of the TFA as provided in sub-Article 4.4.1 above, by the way of payment provided for in Article 5, has not been fully paid sixty

Ten.

(60) days prior to the expiry of the term this Agreement as provided in Article 22, the outstanding balance shall be paid within thirty (30) days prior to the date of expiry.

5 PAYMENT PROCEDURES

- 5.1 All payments from the GoRSS to the GoS for processing fees, transportation tariffs, transit fees and TFA transfers shall be based on the oil volumes redelivered to the GoRSS and lifted at the marine terminal on board vessels at Port Sudan as specified in the respective bills of lading.
- 5.2 The GoS shall issue two separate invoices, one for processing fees, transportation tariffs and transit fees, and another for TFA, each time the GoRSS Oil Entitlement Volumes have been finally redelivered and lifted at the marine terminal and a bill of lading has been issued. Payment shall be made by the GoRSS within forty (40) days from the date of the bill of lading.
- 5.3 The GoRSS shall make payment of the invoice amounts due through the Central Bank of South Sudan to such account(s) of the GoS as the Central Bank of Sudan may specify in writing from time to time. Payment shall be made by wire transfer. The GoRSS shall give notice to the GoS by facsimile or other electronic transmission immediately when payment has been made.
- 5.4 The invoices will be in United States Dollars, but the GoS shall have the right to request payment in equivalent Euro or Pounds Sterling or in any other convertible currency. The rate of exchange to be applied for the conversion of United States Dollars to the currency of payment shall be the spot rate posted on Reuters or an equivalent service by the Bank of England at or around 12:00 noon GMT on the date the payment is made. The GoS shall bear the costs of the payment transfer and the currency conversion.
- 5.5 Processing fees, transportation tariffs, transit fees and TFA payments shall be paid in cash by the GoRSS.

5.6 The GoS may receive payments for processing fees, transportation tariffs, transit fees and TFA payments in kind upon its request and with the prior written consent of the GoRSS.

6 SPECIFIC RIGHTS AND UNDERTAKINGS

6.1 Specific rights and undertakings of the GoS

- 6.1.1 If the GoRSS fails to pay all or any part of the amount of any invoice for processing fees, transportation tariffs, transit fees or TFA payments, as herein provided, when such amount is due, the GoS shall issue a default notice to the GoRSS, and the GoRSS shall remedy the default within fifteen (15) working days from the date of receipt of the default notice. If the GoRSS fails to remedy the default within the said fifteen (15) days, then liquidated damages of two (2) % per annum above London Interbank Offered Rate (LIBOR) shall accrue on the unpaid amount from the date of expiry of the remedy period given under the default notice until the date of actual payment.
- 6.1.2 In the event that the GoRSS fails to remedy the defaulted amount plus the liquidated damages charged as provided above, the GoS shall have the right (right of lien) to sell at international market price FOB Port Sudan such quantity of the GoRSS's Oil Entitlement Volumes as shall be sufficient to pay such defaulted amount.
- 6.1.3 In the event that any amount realized by the GoS from the sale of the GoRSS Oil Entitlement Volumes is in excess of the indebtedness and liquidated damages owing by the GoRSS under this Agreement, the GoS shall promptly return to the GoRSS the excess amount. In the event that the GoS fails to return the excess amount, the GoRSS shall have the right to deduct the amount from the next payment due to the GoS.
- 6.1.4 In addition to the exercise of the right of lien as provided in sub-Article 6.1.2, the GoS reserves the right to suspend processing and transporting the GoRSS Oil Entitlement Volumes until such time as the indebtedness is paid. Any suspension of processing and transportation services for the GoRSS shall remain in effect until the GoRSS has remedied the default or until the indebtedness of the GoRSS under this Agreement has been fully satisfied.

TM. 

- 6.1.5 If after suspension of the processing and transportation system the GoRSS still failed to pay the amount which fell due and a period of sixty (60) days has elapsed since the suspension of the processing transportation services, the GoS reserves the right to shut down the processing and transportation system until such time as the indebtedness is paid, upon seven (7) working days prior written notice.
- 6.1.6 The GoS shall have the right to terminate this Agreement, upon seven (7) working days prior written notice, for any one of the following reasons:
- a. If the shutdown of the processing and transportation facilities continues for more than sixty (60) days and the GoRSS has failed to remedy the default.
 - b. If the GoRSS commits a material breach to this Agreement and such breach is not remedied within sixty (60) days from the date of a notice issued by the GoS to the GoRSS to remedy the breach.
- 6.1.7 The GoS undertakes to the GoRSS that it shall enter into its own agreements with the relevant operating companies with regard to the transfer to these companies of any financial obligations due to them relating to the processing and transportation of the GoRSS Oil Entitlement Volumes in the processing and transportation facilities.
- 6.1.8 The GoS hereby guarantees that no third party shall charge the GoRSS for any amounts due for processing and transportation services stipulated in this Agreement.
- 6.1.9 The GoRSS shall indemnify and hold harmless the GoS from and against any liability, loss or damage, including litigation expenses, court costs and attorneys' fees, suffered by the GoS, arising directly or indirectly out of any demand, claim, action, cause of action or suit brought by any person asserting damage to installations or financial loss due to a shutdown of the Processing and Transportation Facilities ordered by the GoS for material breach of this agreement or failure of the GoRSS to pay any amount under this Agreement when it falls due.
- 6.1.10 The GoS undertakes that no other charges, taxes, imposts or other duties shall be levied on the processing and transportation services for the GoRSS Oil Entitlement Volumes unless expressly provided for in this Agreement.

Tom.

\$

1

6.1.11 The GoS confirms that this Agreement prevails over the Act of the RoS entitled "Amendment to the Petroleum Transit and Services Fees Act 2011", and that it shall not enforce the provisions of this Act against the GoRSS.

6.2 Specific rights and undertakings of the GoRSS

6.2.1 In case the processing, transportation and export of the GoRSS Oil Entitlement Volumes has been interrupted or curtailed due to material breach of this Agreement by the GoS, the TFA amount that would otherwise have been due under Article 4 related to the time period of such material breach shall be suspended until the breach is rectified.

6.2.2 In case suspension in accordance with sub-Article 6.2.1 has continued for more than sixty (60) consecutive days, and the GoS has not remedied the material breach within this period, the GoRSS shall thereafter have the right to terminate this Agreement upon seven (7) working days prior written notice.

6.2.3 The GoS shall indemnify and hold harmless the GoRSS from and against any liability, loss or damage, including litigation expenses, court costs and attorneys' fees, suffered by the GoRSS, arising directly or indirectly out of any demand, claim, action, cause of action or suit brought by any person asserting any damage or financial loss arising out of the failure by the GoS to pay or discharge financial obligations on behalf of the GoRSS to operating companies in respect of charges for processing and transportation through facilities in the RoS, or due to a shutdown of the Processing and Transportation Facilities ordered by the GoS in material breach of this Agreement.

6.3 Continuing obligations

6.3.1 Suspension or termination shall not relieve the party in breach from fulfilling any financial payments under this Agreement that have accrued up to the date of termination, including any claims or damages.

Tom.

7 METERING

- 7.1 The Parties shall together with the operating companies review and ensure that effective metering facilities necessary to carry through the payment obligations and other provisions of this Agreement are installed in the RSS and the RoS and in operation prior to the resumption of oil production in the RSS.
- 7.2 The Parties shall together with the operating companies review whether additional or new metering facilities should be installed in order to be compliant with international standards. To the extent that additional metering facilities are required to this effect, the relevant Party shall instruct the relevant operating company to install such facilities. The investment costs for such additional or new metering facilities shall, unless otherwise agreed, be covered by the Party requesting them, and the facilities shall be owned by such Party. The Parties shall agree on the details for the technical implementation of the above.
- 7.3 The Petroleum Monitoring Committee shall ensure that all metering facilities are regularly tested and calibrated by an independent third party and that proper maintenance and any necessary repairs are carried out.

8 QUALITY ADJUSTMENT PROCEDURES

- 8.1 The Parties and the operating companies shall, within forty-five (45) days from the signature of this Agreement, review and adopt quality adjustment procedures in accordance with international practice to ensure that appropriate value or volume adjustments are applied to reflect the differences in quality in the crude oil delivered by the users of the GNPOC central processing facility and the GNPOC transportation system into the blended stream in these facilities.
- 8.2 If the quality adjustment procedures are not adopted within the time limit set forth under sub-Article 8.1, the Petroleum Monitoring Committee shall appoint international experts to assist in developing such procedures within a time limit to be agreed. The procedures that are developed shall be binding upon the Parties.
- 8.3 Until possible new quality adjustment procedures are adopted, the existing procedures shall apply.

- 8.4 Each Party shall have access to the results of quality tests of crude oils delivered into the GNPOC central processing facility and the GNPOC transportation system.
- 8.5 The Petroleum Monitoring Committee shall monitor the application of the quality adjustment procedure provided for in this Article.

9 CROSS BORDER OPERATIONS

9.1 Cross border movement of personnel and equipment

- 9.1.1 The Parties shall, in co-operation with the operating companies, enter into agreements to facilitate the movement of personnel, equipment and services across the border between the RSS and the RoS, as well as provide security of personnel, in order to enable efficient oil operations within each State.
- 9.1.2 The Parties shall together with the operating companies establish a Joint Cross Border Cooperation Committee within twenty-one (21) days after the signing of this Agreement with representatives from each Party and from the operating companies.
- 9.1.3 The Joint Cross Border Cooperation Committee shall ensure the practical implementation of sub-Article 9.1.1.

9.2 Future cross border petroleum reservoirs

- 9.2.1 In the event that a cross border petroleum reservoir is discovered, the State in which such discovery is identified shall immediately notify the other State in writing.
